This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

AVERTISSEMENT

Nous possédons déjà, en partition, dix livres de **danceries** du XVI[e] siècle. C'est un ensemble de plusieurs centaines de pièces d'inégale valeur, mais, la plupart, d'une importance très réelle au double point de vue de l'art et de la documentation historique.

La hâte de nos lecteurs, pressés d'aller au meilleur, aux chefs-d'œuvre du passé, et aussi les exigences d'une édition dont nous supportons la lourde charge, nous imposaient un choix.

De là le présent volume, le premier d'une anthologie des danses françaises de la Renaissance.

Nous en avons recueilli les éléments dans les précieux imprimés publiés par Pierre Attaingnant et par sa veuve, de 1547 à 1557 (BIBLIOTHÈQUE NATIONALE. Réserve, Vm, 2713. — Inv. Rés. 376, in-4° obl.).

Pour l'étude technique de ces danses, l'*Orchésographie* de Thoinot Arbeau (Jehan Tabourot), publiée en 1589, fait loi (1).

C'est d'après la doctrine de cet ouvrage fameux que **basses-dances** et **tourdions** ont été présentés en mesure ternaire.

---

(1) Réimpression par Laure Fonta. Paris, Bouillon et Vieweg, 1888. Traduction allemande par Albert Czerwinski. Dantzig, 1878.

Digitized by Google

« Vous en treuuerez assez grand nombre dedans les liures de danceries imprimez par feu Attaignant..., et dedans les liures de feu maistre Nicolas du Chemin.... Toutesfois il vous fauldra reduire en mesure ternaire lesdictes basses-dances, lesquelles sont mises en mesure binaire. » (*Orch.* I. 37.)

« ...la dance du tordion, qui est en mesure ternaire comme est la basse-dance. » (*Orch.* f. 28.)

Il sera aisé, par le déplacement des barres, de les ramener au rythme binaire des recueils d'Attaingnant.

D'après la même *Orchésographie*, nous eussions dû écrire à deux temps les **bransles d'Escosse**; mais, à la simple lecture, on comprendra pourquoi, malgré l'autorité de Tabourot, nous préférons conserver le rythme indiqué par Estienne du Tertre. D'ailleurs, là encore, il sera facile de déplacer les barres et d'adopter la battue de l'*Orchésographie*.

Les titres des livres originaux, reproduits ici en fac-similé, indiquent comme auteurs, ou reviseurs, Claude Gervaise pour les livres troisième, quatrième, cinquième et sixième, Estienne du Tertre pour le livre septième. Le second livre (1) ne mentionne aucun nom; encore qu'on l'attribue généralement à Gervaise, nous en désignons les pièces comme *anonymes*, sauf un bransle double, page 63 de notre volume, qui figure aussi parmi les bransles de Champagne du livre cinquième, sous la signature de Gervaise (2).

Les différentes parties de chaque morceau sont indiquées, à la manière des pièces vocales de l'époque, par les mots *Superius*, *Contratenor*, *Tenor*, *Bassus* et, parfois, *Quinta Pars*. Elles n'en sont pas moins instrumentales et s'exécutaient par les familles de violes, de bois, etc., ou encore par le mélange des instruments dont on pouvait disposer.

« On les peult iouer avec violons, espinettes, fluttes traverses et à neuf trous, haulbois et toutes sortes d'instruments, voire chanter avec les voix. » (*Orchésographie*, f. 33.)

Nous traiterons, dans nos commentaires, de cette question,

---

(1) Nous ne disons rien du premier livre de ces *danceries*. Absent du recueil de la Bibliothèque Nationale, il n'a pu être retrouvé jusqu'à ce jour. Le catalogue de Brossard l'identifie, à tort selon nous, avec le *Premier livre de violle, contenant dix chansons avec l'introduction de s'accorder, et apliquer les doits selon la manière qu'on a accoutumé de jouer, le tout de la composition de Claude Gervaise. Imprimé par la veufve de Pierre Attaingnant, demeurant à Paris..., le 14 février 1554.*

(2) Deux autres bransles doubles du livre anonyme, que nous reproduisons pp. 66 et 68, se retrouvent comme bransles de Champagne au livre sixième, mais avec de légères variantes.

Digitized by Google

comme de tout ce qui concerne ces musiques si curieuses. Toutefois, dès à présent, il nous paraît nécessaire de signaler le rôle mélodique de la partie de ténor, qu'il conviendra de toujours mettre en valeur.

La réduction que nous ajoutons à la partition n'est pas pianistique; elle n'a pour but que de grouper d'une façon plus étroite l'ensemble des parties concertantes, et si nous la réalisons en valeurs diminuées, c'est afin que les croisements y soient plus facilement figurés.

HENRY EXPERT.

Nous publierons dans nos *Extraits* plusieurs suites des présentes danses, adaptées aux instruments à clavier, aux instruments à cordes, à vent, etc.
